Start building the future of manufacturing with Vodacom Digital Buildings

Vodacom Digital Buildings is an IoT solution designed for smarter business. Gain visibility over your production processes and ensure inventory optimisation, maximised production time, and improved output with our seamless integration technology.

The six ways
Vodacom Digital Buildings can benefit your business

1. Optimised, in-shift scheduling to remedy inefficient routing.

**2.** Predictive maintenance to prevent bottleneck effect.

3. Improved visibility of processes.

4. Dynamic scheduling and ETA tracking ensures there are no unexpected delays.

5. Improved utilisation of equipment/goods/assets means better inventory management.

6. Theft detection ensures the business doesn't suffer any undue losses
