Always been an **entrepreneur at heart** and wanted to be your own boss?

Then you need the **right technology** to help drive your business further.

Has your **side hustle** turned into your **main source** of income?

Fortunately, one **small addition** could have a **big impact** on how you run your business.

## What can Kwika do for your business?

Kwika is ideal for any business, but is the perfect point-of-sale (POS) solution for (smaller) entrepreneurs and on-the-go merchants. All card payments are quicker and more efficient with this nifty device. Simply choose the card payment method – tap, scan, insert or swipe, and pay – then wait for the electronic receipt.

This small, standalone gadget requires no additional phone or tablet and allows you to accept card payments anyway, anywhere – it's the ultimate fully mobile card acceptance device. The user friendly device makes it easy to capture and complete transactions. Best of all, this mobile payment solution has no rental fees and an affordable once-off purchase fee.

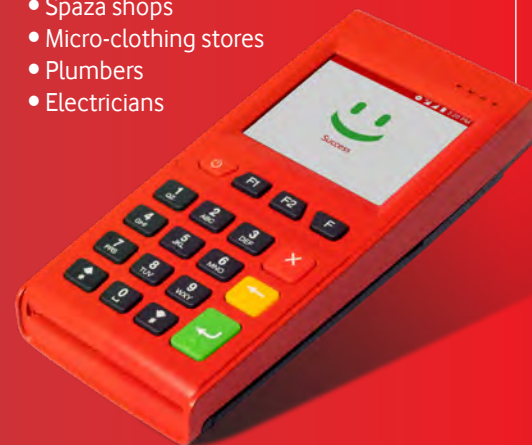

## Why choose Kwika?

- Transactions are quicker – simply enter the amount, tap, scan, insert or swipe, and pay
- Contactless payments for safety and convenience
- Easy to use for you and your customer
- Affordable transaction fees to improve cash flow
- Payments accepted from locally and internationally enabled cards
- Electronic receipts via SMS
- Dual SIM, so you never lose connectivity
- Transaction history is also available on the device
